1. Revisions

2012-03-06 Version 1: Original Document

2012-03-07 Version 2: Added **extra codes** ref. <http://www.190slgroup.com/tech/Datacard.htm>

2012-03-09 Version 3: Added more code descriptions ex EPCnet Code Search.

2012-06-09 Version 4: Added **more code descriptions** ex WIS OV00.01-P-1001-27A (Version 3 replaced by Skylaw on my behalf.)

2013-01-08 Version 5: Merged a very comprehensive **list of vehicle codes** which included dates with my original list and culled any duplicates.

2. Introduction

The Fahrzeugdaten {Vehicle Data} Card is supplied by the factory in the Wartungsheft {Maintenance Booklet} which should be found with the original vehicle books.

(Later note: It appears that cars manufactured after about 2010 do not have a Vehicle Data Card. The information on included options is only available via the STAR Diagnostic System.)

The Vehicle Data Card identifies the vehicle and describes the special equipment and options that were present on the vehicle at delivery.

I have tried to compile a comprehensive, and as complete as possible, list for the Mercedes Benz Vehicle Data Codes and their meaning.

I know that this information is incomplete and there are bound to be errors so please post any changes, additions and corrections etc and I will edit and repost. That way the document will hopefully evolve into a definitive one for the MB Vehicle Data Card.

Note extra information is needed wherever there is:

TBD means 'To Be Determined'.

TBC means 'To Be Confirmed'.

?? means 'Don't Know'.

Note some words are in German with the English translation, where known, shown in braces eg. Deutsch {German}.

In Version 5, I have merged a very comprehensive list of vehicle codes (which included dates) with my original list. The reference to a Japanese web site at

<http://www.bekkoame.ne.jp/~mtor/mbcodedsc.html> was provided by Benzworld poster 'eric242340' and also refers to the Mercedes Benz Club Russia at <http://www.mbclub.ru/>

The Title of the Japanese Web Page says:

コード一覧 or {Code List}

以下は色、装備品に関するコードの説明を一覧する表です。これらの使われ方はビークルデータカードのページで触れています。Code Decoder (by mbclub.ru) でも調べることができます。

Translated this says;

{Below is a table that lists the description of the color code, and equipment. How it is used of these are mentioned in the pages of the vehicle data card. You can check any Code Decoder (by mbclub.ru).}

3. Acknowledgement

The references include.

<http://www.benzworld.org/forums/r129-sl-class/1495650-mb-data-card-info.html>

<http://www.benzworld.org/forums/general-mercedes-benz/1531241-mercedes-data-card-info.html>

STAR Diagnosis Assistance System (DAS) or STAR Diagnosis System (SDS).

Benzworld poster 'eric242340' and <http://www.bekkoame.ne.jp/~mtor/mbcodedsc.html>

4. Description

This document was compiled from Vehicle Data Cards posted on the BenzWorld Forum. It contains mostly MB car codes but also some MB truck codes. A lot of the descriptions were associated with someone's vehicle. Some of the codes are duplicated where there were several meanings. Later note: Be warned that the codes may be model specific.

5. Typical Vehicle Data Card

This is an example of a Vehicle Data Card as supplied with my W220 S500L sedan.

| 10 Kunde | | 2 WARTUNG SHEFT | | | | | |
